Healing Fire and Light

What does it mean?

Healing is restoring to health or soundness; restoring (a person) to spiritual wholeness.

Fire is our technical skills, how we perform our job, tasks, etc.

Light is how we show loving care by making our patients, residents, guests and co-workers feel welcome, comfortable and RESPECTED.

Our motto is “**We are God's children CARING for God's children.**”

St. Aloisius Medical Center fosters an inspirational work environment; we cultivate talent, value diversity and fulfill individual aspirations to the benefit of our employees and the Center's *Healing* mission.

Our mission—Healing Hospitality. See our Mission Statement and Values.

If you want more information where this started, see a book called *Radical Loving Care* by Eric Chapman.

SMP Health System

St. Aloisius Medical Center

Mission Statement:

St. Aloisius Medical Center,
inspired by Jesus,
in union with the Sisters of Mary
of the Presentation,
ministers health to all we serve.

Values:

Hope – Creating an atmosphere of trust and confidence.

Healing – Caring for body, mind and spirit.

Hospitality – Welcoming, in a Christ-like way.

Bible reading: Matthew 16:24-27 . Verse 26 " For anyone who keeps his life for himself shall lose it; and anyone who loses his life for Me shall find it again."

For all outward appearance , they were the ideal couple. They lived in a beautiful mansion, had several cars, and the list went on and on. But beneath the façade they were miserable creatures. They had tried in a number of ways to find happiness and fulfillment. But the harder they had tried the more miserable they had become. Receiving Christ was not so hard for them to do. They both realized they were sinners and needed as Savior. But they had lived such selfish lives for so long that it was not easy for them to begin to consider others as the Scripture admonished. After a time they did begin to work with elderly people in a convalescent homes and with prisoners through the ministry of the local church.

With the passing of time, the miracle happened and that elusive goal of happiness, fulfillment and satisfaction became a reality. In losing their lives they truly found them in service to others in the name of Christ. They found the abundant life which He promised and for which they had sought so long. God's loyalty has been proven over and over again. In reviewing my own experiences, and in observing the lives of many others, I have become aware that the individual who seeks happiness never finds it, but the one who is committed to taking happiness to others always finds it. And he also finds meaning, purpose, joy and peace in the process.

TODAY'S THOUGHT: I am determined to experience the reality of this promise by surrendering the control of my life to Him and demonstrating my commitment through serving others.

Your Chaplain, Sr. Mary Agnes
Pastoral Care Department

New: Prayer time will be added in Long Term Care. A 10 to 15 minute time for prayer will be held on each unit twice a month and is open to all residents. This is in addition to the employee time for prayer held the first Tuesday of each month.

Celebrate the Feast of St. Aloysius

Tuesday, June 20th
9:00 am

*Employees will be treated to rolls & coffee
in the cafeteria.*

Come and enjoy!!

St. Aloysius was born March 9, 1568 in Italy. He was destined for the military by his father but by the age of 9 Aloysius had decided on a religious life and made a vow of perpetual virginity. A kidney disease prevented St. Aloysius from a full social life for a while, so he spent his time in prayer and reading the lives of the saints. St. Aloysius kept up his many devotions and austerities and was quite resolved to become a Jesuit. His family eventually moved back to Italy, where he taught catechism to the poor. When he was 18, he joined the Jesuits after finally breaking down his father, who had refused his entrance into the order. He served in a hospital during the plague of 1587 in Milan and died from it at the age of 23. The last word he spoke was the Holy name of Jesus. Pope Paul V beatified Aloysius on October 19, 1605 and Pope Benedict XIII canonized him on December 13, 1726. Patron Saint of St. Aloisius Medical Center, Catholic Youth Aids patients, Jesuit students and those with sore eyes.

Employee Parking

We need to keep the center lanes of both the Outpatient Services Center and the Hospital open for patients and visitors.

Signs are posted by the time clocks.

If you have any questions regarding parking, ask one of the switchboard staff—they will be glad to tell you where you should park.

(The North Parking Lot is fair game for everyone!)

<— See map!

HIPAA MEMO

Just a reminder—don't open attachments in email from people you don't know. That's how viruses, malware, ransomware, etc. get into a computer network.

The biggest protection is education. We have a wonderful thing called SonicWall that keeps computer attacks out of our network, but it's up to us not to invite them in.

Make sure you keep your work computers powered on and do a restart, daily is best. This allows our IT department (Northstar) to do essential patching of vulnerabilities. Marian
