

Community Benefit Report
2021-2022 Fiscal Year

Report of SMP Health - St. Andrew's Commitment to its Community

SMP Health - St. Andrew's has been a part of the community since 1913. Our mission is to provide services to all who come to us for care; this is something that we are very proud of. Our ability to better the lives of those most in need is the core of our beliefs and knowing that we can make a difference in the lives of those we serve. In addition, we believe that through our leadership and presence in the community we have been and will continue to be an essential part of the healthcare delivery team.

SMP Health - St. Andrew's is designated as a Critical Access hospital and has had the designation since July 2001. We continue to utilize "The Guide for Planning and Reporting Community Benefit" book that was prepared by the Catholic Health Care Association to help determine what qualifies as a community benefit and participate on webcasts as offered. We attend a variety of educational opportunities throughout the year to provide direction in reporting on our benefits to the community.

Charity Care (Caring Program):

During the past year, we provided \$56,295 of free care for 33 people. We budget to provide the caring program on an annual basis. SMP Health - St. Andrew's utilizes the federal poverty guideline; we go up to 200% of the federal poverty guidelines and utilize a sliding scale that provides a greater opportunity for patients/clients to qualify for free or reduced care ranging. The reduced care ranges from 20% to 100%. Our caring program is made available to all patients and may be viewed on our website: www.smphealth.org/standrews/. Upon completion of an application income history and/or annual income tax filing to determine where they qualify within the program guidelines. Once the patient qualifies, they are approved coverage 240 days prior to date application was received and approved 1 year after date received. At that point, they can reapply. We also provide the patient(s) with an insurance card to present at the time they are at the registration desk for the service/visit. This has provided a means for the patient(s) to know their coverage dates and what family members are eligible to receive the services free or at a discounted rate. This program was implemented in the health center. In January 2014, the State of North Dakota added Medicaid Expansion; more patients are qualifying for this insurance coverage. Medicaid Expansion has had an impact to the number of individuals qualifying for charity; patients must be denied Medicaid Expansion to be approved.

We continue to maintain the Community Resource Coordinator (CRC); this person offers assistance to those in need. The CRC offers an array of services in searching for medical/dental coverage for those that are underinsured or uninsured. The CRC maintains our Linus Project and provided approximately 49 free blankets for pediatric patients in need of comforting. The CRC also helps individuals fill out Caring Program paperwork

In total the CRC provides resources to approximately 100 people in our community and service area; without the resource many of these individuals would have gone with needs unmet.

We continue to maintain this position within the health center and in the Bottineau County service area. We continue to see an increase in the individual's out of pocket costs that remain following payments provided by their insurance carriers. With the rise in health care premiums and aging population; families have to make some difficult decisions. The lack of insurance or underinsured has a devastating effect on the people of our community. We are committed to the Catholic Healthcare Initiative on working towards insurance coverage issues for the uninsured and underinsured.

SMP Health - St. Andrew's

Bottineau, North Dakota

Throughout the year we held food pantry drives and collected funds to give to the school system for children in need of money for milk at snack time. We also have an angel tree within the facility that has a range of ages of boys and girls that are in need of receiving some gifts at Christmas. We do this in collaboration with a service group in our community.

SMP Health – St. Andrew's is completing a community health needs assessment (CHNA) and implementation plan. All meetings and data were collected by Crescendo Consulting Group (www.crescendocg.com). The CHNA report and action plan will be posted to our website, www.smphealth.org/standrews/. The CHNA will be used as part of our strategic plan.

In direct connection to providing area individuals more about wellness and illness prevention, we continue to provide information to the community via specific topics, education events, and advertising about on overall health and wellness. We provide diabetes education sessions to the public 3 times this year. The sessions run for a six week period and there are 6 classes for each session. We offer a wide range of educational material in the local news paper through our weekly "Healthbeat" feature. The topics have included prescription opioid use, prevention guidelines, stress management, and information about National High Blood Pressure and American Stroke Month. These are just a few examples of ways that we get health and wellness information out to the public.

Beyond Charity Care

In addition to our free charity care, SMP Health – St. Andrew's has provided many other services to meet the needs of those in Bottineau County and service area: we provide access to clinical practice to the Bottineau and Minot region.

A number of students job shadow as part of their education requirements. Over the past year we have had students job shadowing or completing internship hours for a Nurse Practitioner (NP) program. We also have the school of nursing students from Dakota College Bottineau at the facility completing practicals during the college school year. We are happy to be a clinical site to Dakota College-Bottineau for the ADN/PN nursing program and UND for the NP program; we have a number of students that utilize SMP Health - St. Andrew's for their clinicals on a day to day basis.

St. Andrew's allows for time to educate high school students about potential career opportunities in health care and provides job shadowing opportunities for those interested. We work closely with the local high school to provide health career access to the students.

St. Andrew's participates in a number of community events/activities that pertain to healthcare and our direct relations to our community; including wellness committee, bio terrorism group, disaster preparedness, co-sponsor a blood drive, blood pressures are offered during a variety of community events. We offer a free blood pressure screening day every Tuesday. This helps monitor the vascular health of around 10 patients each week. Annually we impact about roughly 100 people.

St. Andrew's provides conference rooms for local non-profit organizations for meeting use.

St. Andrew's provides maintenance for up keep of the volunteer ambulance grounds and parking lot (i.e. snow removal) and linen services.

Community Leadership

St. Andrew's and its team of co-workers strive to increase their level of community involvement. Many of the employees of St. Andrew's serve on several local and regional committees working to improve the health and lives of the members of Bottineau County.

Summary

Mission Statement

SMP Health - St. Andrew's, in union with the Sisters of Mary of the Presentation, works for the glory of God by bringing the Word and Healing of Jesus Christ to all, with a special concern for the poor and elderly. Through the shared ministry with the laity, SMP Health - St. Andrew's participates in the health care mission in the work of healing which is the work of God. Our individual inspiration is Jesus and His Gospel message. Permeated with the Charism of the Sister of Mary of the Presentation, we minister to one another and all who come to us for care.

St. Andrew's Value Statement reads: We show care and compassion through:

Commitment: We strive to provide excellent service to the people of our community by caring for each person's spiritual, physical and emotional needs.

SMP Health - St. Andrew's
Bottineau, North Dakota

Respect: Our goal is to protect the privacy and dignity of our patients and one another. We respect those we serve and each other by showing consideration for each person's values and spirituality.

Trust: We aim to develop trust with our patients by building their confidence in our ability to deliver quality healthcare in an honest and reliable manner.

Teamwork: Working together we create a team atmosphere by which we support one another, remembering we are all equal and all work to fulfill our mission.

As we continue to build upon our Mission Driven Healing Hospitality program; we will continue to strengthen the values, Mission and viability of our organization and meet the needs of our community and the people that we serve.
