Good Afternoon Families and Friends

ND Health Department webpage under Coronavirus and the page that identifies positive cases of residents and staff by City and County have made an ERROR in Sheyenne Care Center resident positivity. We have had only one resident that has ever been tested positive in the 8 months we have been living with this virus. I have been working on having the Health Department correct this ASAP but have not had much luck.

To inform all families that Sheyenne Care Center does not have any positive residents.

Thanks

Craig Christianson, CEO
