

1/12/2021

Sheyenne Care Center COVID test occurred on Monday (1/11/2021). The test result from on Monday COVID test identified 100% negative both residents and staff results.

If positive test results occur, residents will be moved into isolation immediately. The nurse will notify the family member immediately of the positive test result, and the resident will be moved onto the isolation area, located on the 4th floor. Employees testing positive are sent home in isolation until cleared to return to work.

We continue to offer residents and workers the COVID vaccine. If you would like your loved one to receive the vaccine, please contact our Social Service representative and visit them on the procedure we need to follow. We do need consent from either the resident or their guardian before a vaccine is provided.

Our next COVID testing period is Thursday, January 14th. Please continue to be safe, socially distant, wear a mask, and wash hands / frequently sanitize to protect yourself and others from this virus.

If you have any questions, please feel free to contact the nurse manager in the area in which your loved one lives.

Thank you, and be safe.
Craig Christianson, CEO
