

3/25/2021

Sheyenne Care Center COVID test occurred on Monday (3/22/2021). The test result from the Monday COVID test identified 100% negative for both residents and staff. Although on March 19th, our COVID-19 test results identified a positive, and under the new guidelines, 2nd floor only will remain in isolation for another 7 days. All other areas are open to schedule visitation.

We are back to providing families and friends with limited visitation. The policy on family visitation to Sheyenne Care Center Facebook and our Webpage. You can begin to schedule your visitation with the social service department. Please remember that if we have a positive COVID test turn up at Sheyenne Care Center, we will have to restrict visitations according to CMS guidelines.

If positive test results occur, residents will be moved into isolation immediately. The nurse will notify a family member immediately of a positive test result. The positive COVID test result requires staff to move the resident onto our isolation area, located on the 4th floor. Employees testing positive employees are sent home in isolation until cleared to return to work.

We continue to offer residents and workers the COVID vaccine. If you would like your loved one to receive the vaccine, please contact our Social Service representative and visit them on the procedure we need to follow. We do need consent from either the resident or their guardian before the vaccine is given.

Our next COVID testing period is Monday, March 29th; please continue to be safe, wear a mask, wash hands, frequently sanitize, and social distance to protect yourself and others from this virus.

If you have any questions, please feel free to contact the nurse manager in the area in which your loved one lives.

Thank you, and be safe.
Craig Christianson, CEO
